SUMMARY

Results-driven Full Stack Developer with a strong foundation in backend and frontend development, specializing in PHP, Laravel, and React.js. With a solid academic background and hands-on experience in building dynamic web applications, I am eager to contribute my technical skills to drive impactful solutions. Seeking opportunities to leverage my expertise in delivering innovative, user-centric software solutions while continuously expanding my knowledge in emerging technologies.

EDUCATION

Master in Computer Application (MCA)   June 2021 - June 2023
Future Institute of Engineering and Management
CGPA- 80%

Bachelor of Computer Applications (BCA)   July,2018 - July,2021
Future Institute of Engineering and Management
CGPA- 77%

PROJECTS

BACKEND DEVELOPMENT

Dining Reservation System: January 2024 - June 2024
- Developed a Dining Reservation System web application to streamline table bookings at a restaurant.
- Implemented a template-based design using modern HTML, CSS, and JavaScript for a seamless user experience.
- Utilized PHP and Laravel to create a secure and scalable backend infrastructure with efficient database management.

FRONTEND DEVELOPMENT

Travel Tourism: August 2024 - Current
- Developed a dynamic web application for a Travel Tourism Project, offering users an engaging platform for exploring and booking travel experiences
- Structured and styled web pages using HTML & CSS to ensure a visually appealing and user-friendly interface
- Enhanced interactivity and responsiveness with JavaScript to create a smooth and engaging user experience
- Utilized ReactJS and the React framework to build a highly interactive, component-based front-end
- Implemented React's state management and virtual DOM for efficient updates and a fast user experience.

TECHNICAL SKILL

Frontend: Proficient in React.js, JavaScript, HTML5, CSS3, and responsive design principles. Experienced in building dynamic and interactive web applications.
Backend: Proficient in PHP and Laravel for server-side development, with expertise in designing RESTful APIs and integrating with diverse databases.
Databases: Extensive knowledge of MySQL. Proficient in designing schemas, querying, and performance optimization.
Languages: Experienced in JavaScript and PHP for backend development, and Python for scripting. Proficient in using Visual Studio Code for efficient coding and debugging.

CERTIFICATIONS

Business Analytics For Management Decision
NPTEL
https://archive.nptel.ac.in/noc/B2C/candidate_login/candidate_scores.php?courseid=noc24-mg09
- Certified in Business Analytics for Management Decision from IIT Kharagpur, demonstrating proficiency in utilizing data analysis for strategic decision-making and driving business growth.

Full Stack Development
EjobIndia
- Executed regular site maintenance operations to ensure seamless performance.
- Collaborated closely with cross-functional teams of developers and industry experts to drive project success.
